

# CONTENTS

<b>Foreword</b> by Paul Batalden, M.D.	vii
<b>Introduction</b>	ix
<b>Chapter 1:</b> The Gap Between What We Know and What We Do	1
Diagnosing Ill Systems	1
Finding the Quality Gap	2
Evidence-Based Improvement	4
The Model for Improvement	8
Summary	10
<b>Chapter 2:</b> Finding Scientific Evidence to Apply for Clinical Improvement	13
The Importance of Evidence-Based Medicine	14
Formulating a Question	15
Evaluating the Strength of Evidence	18
Choosing the Right Resource Based on the Question	20
Working with a Reference Librarian	20
Summary	22
<b>Chapter 3:</b> Working in Teams and Across Professions for the Improvement of Care	25
Teams in the Health Care Setting	27
Running Efficient and Effective Meetings	29
Interprofessional Teams for Improvement	30
Summary	34
<b>Chapter 4:</b> Focusing an Improvement Effort	37
Identifying Areas That Need to Be Improved	37
Narrowing the Focus of the Improvement Work	39
Putting It All Together	41
Summary	44

<b>Chapter 5: The Necessity of Process Literacy</b>	49
Process Literacy	49
Culture, Context, and Systems	51
Process Modeling	55
Summary	61
<b>Chapter 6: Measurement Part 1: Overview of Data Analysis for Improvement</b>	65
Understanding the Importance of Data Analysis	66
Experiential Learning	69
Summary	72
<b>Chapter 7: Measurement Part 2: Identifying Measures for Improvement</b>	75
Identifying Data	75
Displaying Measures for Analysis	79
Summary	82
<b>Chapter 8: Measurement Part 3: Using Run Charts and Control Charts to Monitor Systems</b>	83
Monitoring and Evaluating Systems Over Time	84
Defining Common Cause Variation and Special Cause Variation	86
Run Charts and Statistical Process Control Charts	88
Summary	95
<b>Chapter 9: Understanding and Making Changes in a System</b>	99
The Complexity of Systems Changes	100
Complex Adaptive Systems (CASs)	101
Managing Changes to a System	103
Case Example: Reducing Falls and Injuries Due to Falls in Hospitalized Patients	104
Summary	115
<b>Chapter 10: Developing Improvement Skills in Clinician Learners: Defining the Core Competency for Physicians</b> <i>by Greg Ogrinc, M.D. and Tina Foster, M.D., M.P.H., M.S.</i>	117
Defining <i>Core Competency</i>	117
Developing Competency in Practice-Based Learning and Improvement	119
Improving Educational Programs	123
Summary	123
<b>Chapter 11: Teacher's Guide for Designing Ways for Students to Learn to Improve Care</b> <i>by Linda A. Headrick, M.D., M.S., and Leslie W. Hall, M.D.</i>	125
Health Professional Development in the Improvement of Health Care	126
General Principles for Educational Experiences in Health Care Improvement	127
Opportunities for Teaching About Improvement Across the Continuum of Medical Education	132
Learning More About Teaching Medical Students About the Improvement of Health Care	135
Additional Resources	135
<b>Index</b>	139
