

Disease-Specific Care Certification Preparation Advisory Services

**Better Outcomes through
Consistent Care**

Disease-Specific Care (DSC) Certification is a commitment to providing patients with a consistent high quality approach to care, designed to help reduce the risk of error. Joint Commission Resources' (JCR's) team of consultants can help you prepare for certification providing guidance, insights, and a clear strategy to extend your culture of excellence.

JCR experts can:

- Provide an independent perspective of your entire organization
- Conduct a mock review of your program to evaluate your readiness to pursue certification
- Assess your program using gap analyses
- Provide practical strategies that will assist you with strengthening your program
- Highlight important processes or functions throughout your program that require attention
- Work with your entire clinical team to answer questions and interpret standards
- Determine the best data to collect for effective data-driven performance improvement
- Provide input into your opening conference and data system tracer

Our consultants can help your team prepare for certification in a wide range of programs including all of the core and advanced programs. Examples include:

- Acute Heart Attack Ready
- Primary Heart Attack Center
- Comprehensive Heart Attack Center
- Comprehensive Cardiac Center
- Chest Pain
- Heart Failure
- Ventricular Assist Device
- Acute Stroke Ready Hospital
- Primary Stroke Center
- Thrombectomy-Capable Stroke Center
- Comprehensive Stroke Center
- Orthopedic
- Perinatal Care
