

Medication Management and Safety Advisory Services

Complying with USP Chapter <800>

Many organizations are facing challenges when it comes to USP Chapter <800> compliance due to its many requirements and multidisciplinary work across the continuum of hazardous drug handling. We understand that you recognize the urgency and importance to be compliant with this national standard, but may lack the resources or expertise needed to overcome these challenges to achieve sustainable compliance in order to protect your staff who may come into contact with hazardous drugs.

Turn to the experts at JCR

Joint Commission Resources is here to help you face your USP Chapter <800> challenges. Our team of current and former pharmacy, nursing, and Environment of Care® and facility directors will perform a comprehensive assessment to evaluate compliance at your facility. They will identify where your organization has gaps with the USP Chapter <800> requirements, and will provide suggestions and tools to help you implement an action plan to help bring your organization into compliance.

A plan tailored to your needs

When our experts arrive on site, they will work with your organization to:

- Evaluate compliance for USP Chapter <800> requirements and provide recommendations to address findings and improve compliance;
- Perform an assessment of risk as part of your USP Chapter <800> implementation strategy;
- Assess hazardous drug sterile and non-sterile compounding environments to determine compliance with USP Chapter <800>;
- Review organizational policies pertaining to hazardous drug handling;
- Evaluate role-based training and competency assessment program for hazardous drug handling; and

- Provide education and tools to support organizational compliance with USP Chapter <800>.

At the end of this engagement with JCR, you'll receive:

- A comprehensive report with findings and recommendations for improvement;
- A presentation to your team and management explaining the findings; and
- Tools to support ongoing compliance with USP Chapter <800>.

Online gap analysis tool

JCR medication management experts have published a complimentary online gap analysis tool for USP Chapter <800>, as well as the complementary 250 page toolkit *Improving Safe Handling Practices for Hazardous Drugs*. You can access this tool and request the toolkit at: www.hazmedsafety.com.
