

Navigating Your Way Through USP <800>

Learn About the New USP
<800> Chapter That Will Be
in Effect January 2018

Give your hospital association members the opportunity to learn from Joint Commission Resources experts about how to comply with new requirements for the safe handling of hazardous medications from the U.S. Pharmacopieal Convention. Joint Commission Resources Pharmacy and Environment of Care experts are available to present to your members.

Knowledge-based custom education activity objectives

Upon completion of this custom education activity, the participant will be able to:

1. Describe five aspects of planning that must be performed at the start of an organization's journey to USP Chapter <800> compliance
2. List three challenging aspects of constructing USP Chapter <800> compliant environmental controls
3. Describe strategies for performing an "Assessment of Risk"
4. Discuss three requirements when compounding sterile and non-sterile hazardous medications under USP Chapter <800>
5. Discuss three requirements for compounding, handling, and administering hazardous medications
6. Describe three challenges to correct hazardous waste management that could result in a finding of non-compliance during a Joint Commission survey
